

IGHT-HOURS SYSTEM

Meeker's Report on Experiments by English Employers.

WIT FOR FEWER HOURS SOON TO BE RENEWED IN PARLIAMENT.

London, May 1.—Claude Meeker, Consul General, England, has contributed an interesting chapter to the history of labor legislation in a report to the department of State upon experiments with the eight-hour system by English employers of labor. He says that though attempted legislation in that direction has been several times defeated, the fight is to be renewed and the eight-hour bill will soon be before Parliament.

POSTPONED THE MARCH.

Morrison's Army Decides Not to Leave Until To-Morrow Morning.

The departure of the St. Louis contingent of the commonwealth has been deferred another day and there is no certainty that even then they will bid this city farewell. Gen. J. K. Morrison it is true has given out to his soldiers that the march on the Capitol will be begun to-morrow, but as yet no solution of how the army is to cross the river has been found by the General. He and his fellow officers say that they will start to-morrow at 10 o'clock a. m. if they have to swim the river and walk all the way, such an abundant contact with water would make a pleasant change in the appearance of most of the army, but it is doubtful that many of the privates would make the plunge with their more enthusiastic officers.

Morrison spent the entire forenoon in soliciting aid from citizens, men who are well-known public-spirited men. He met with little encouragement. Some talked with him of his plans, others politely refused him, and all expressed themselves as not in sympathy with the movement and disinterested to give it financial recognition.

The army presented quite a picture in its headquarters at Centre Hall this morning. Over 800 of the enrolled men gathered there during the morning and were on hand when the breakfast was served. Dinner to-day consisted of soup, plain roast, without bread or other necessities. This was served in a variety of table ware—cups, saucers, bucket tops, "growlers" and everything that could be found that would hold a ration of soup. The soldiers thought the people of St. Louis were hard-hearted not to contribute to their lunch and expressed a desire to get away as soon as possible from such an ungenerous place.

"Who contributed the soup?" asked the general. "Oh, that is supposed to be paid for," was the reply, "but it has not been paid for yet. We are waiting for the General to get it paid for upon what he raises to pay for this." The soup was in a large milk can and had been secured from the city.

Up to the present 46 names have been enrolled. Quite a large proportion of them were present to-day, especially about noon, and the officers think that all the enlisted men will start on the march to-morrow. A good many of those present who paraded the soup decided that they belonged to the army.

The officers are General J. K. Morrison; First Lieutenant W. H. Corey, second Lieutenant, Frank Klemm; Third Lieutenant, Thomas S. Gallagher; Sergeant-at-Arms, Jack Collins. The "company" of supplies has not yet been appointed.

The donations up to date have not been at all overwhelming. The "club" contributed several hundred advertising caps and has promised, so the soldiers say, a cash contribution of \$20. This, however, has not been received. Miss Harriet M. Stock of 221 North Eleventh street sent a package of six dozen boxes of soap, with which the men are to rub their feet and tired limbs to-morrow. She is a member of the army's condition on arrival at Washington. The army is not enthusiastic over the contributions.

Belleville Miners Force the Collinsville Men to Stop Work.

SIX HUNDRED MEN LAY DOWN THEIR TOOLS THIS MORNING.

Work Suspended at the Three Mines of the Consolidated Coal Co.—The Men Had Voted to Continue at Work, but the Belleville Delegation Induced Them to Change Their Minds.

The three Collinsville (Ill.) mines of the Consolidated Coal Co. of St. Louis are idle to-day, and about 600 men are not working. This morning when they went to work they found the mines closed. The Belleville miners had laid down their tools and the Collinsville miners were induced to do the same.

The Collinsville miners held a meeting Saturday evening and after listening to a speech by representatives of the Belleville miners to strike and help them and the general movement, they voted to continue working. Monday the mines were operated as usual. The Collinsville miners have no grievances and did not believe a general strike would be a success.

Yesterday the Belleville miners held a meeting and determined to adopt more stringent measures. During the night about 500 of them marched toward Collinsville. The arrival at sunrise. The news of their coming was soon known to the miners at Collinsville. They had a telegram from the Collinsville miners and a telegram from the Collinsville miners.

The Collinsville miners were still in Collinsville. General Manager James O. Simpson of the Consolidated company confirmed the trouble. The Collinsville miners had a telegram from the Collinsville miners and a telegram from the Collinsville miners.
